

MORE SEX LESS WORRIES

It's time you smartened up.
There are now more ways to **protect yourself from HIV**.
Whether it's a pill a day (PrEP),
an injection every 2 months (long-acting PrEP),
a condom every time, or a mix (condom + a form of PrEP),
what's important to know is that now you have more choices
to continue having fun while enjoying peace of mind.

Do it your Way. Do it Right.
