

# F\*CKING SMART

There are now more ways to protect yourself from HIV.  
Whether it's a pill a day (PrEP),  
an injection every 2 months (long-acting PrEP),  
a condom every time, or a mix (condom + a form of PrEP),  
what's important to know is that now you have more choices  
to continue having fun while enjoying peace of mind.

**Do it your Way. Do it Right.**
